

2010 NAEA National Convention
April 14-18, 2010, Baltimore, MD

Interactive Demonstrations
Exhibit Hall/Convention Center

Thursday, April 15

11:00 – 11:30 am

Artsonia

Most of you know that Artsonia is a way to publish your student artwork online. Come learn how to use the online gallery in your classroom to inspire and enthuse your students. Also, watch out for free-flying t-shirts given away throughout this demo.

1:00 – 1:30 pm

SchoolSculptures with Kevin Reese

This demo will start with a seven-minute video about SchoolSculptures followed by a PowerPoint presentation on the Mobile Residency Project. The presenter will share the process of creating a permanent kinetic installation along with photographs of finished sculptures from around the country. A question and answer period will follow.

2:00 – 2:30 pm

Digication

In this demonstration, co-founder and CEO, Jeff Yan, will showcase the Digication e-Portfolio community at <http://naea-digication.com> and show NAEA members where to login and create their own e-Portfolios. Create a professional, online portfolio of your work or your students' work. Share lesson ideas and more with the like-minded artist-educators.

Friday, April 16

11:00 – 11:30 am

National Museum of Women in the Arts

Want to integrate the visual arts into your classroom, but unsure how? Come explore the Art, Books, and Creativity (ABC) curriculum and related Teachers Connect web-based resources with the National Museum of Women in the Arts! Make a take-away artist's book containing information about implementing ABC and accessing Teachers Connect.

12:00 – 12:30 pm

Crayola

Watch, learn, and explore! Discover innovative drawing tools from Crayola! Color Sticks offer broad strokes and fine lines of color. And Slick Stix glide on smooth with rich colors and creamy lay down. Come check it out!

1:00 – 1:30 pm

KEVA Planks

Using high precision KEVA planks and very simple art challenges, participants will learn an easy way to provide meaningful sculpture experience in virtually any setting. This workshop is entirely hands-on, fun and practical. It is an abbreviated version of training workshops we provide to school districts. Learn an entirely new approach to sculpture—anytime, anywhere.

2:00 – 2:30 pm

Threadless

This presentation will include the Threadless free curriculum program entitled Threadless 101 in which students are assigned to create an original tee design. Threadless 101 can be used at all experience levels and can fit into any curriculum. It's fun for all and benefits both students and teachers!

Saturday, April 17

11:00 – 11:30 am

Savannah College of Art & Design

Opportunities for Educators at SCAD! At SCAD, we realize the importance of building relationships with teachers and counselors. Not only do we offer resources that will assist you in helping your students succeed, but we also provide opportunities for you to further your own education. Explore the possibilities through this presented by SCAD Admission staff.
